

Abdul Rahman

FULL STACK DEVELOPER

github.com/abdulrdeveloper | hire@abdulrdeveloper.me | Shekhupura, Pakistan | abdulrdeveloper.me | linkedin.com/in/abdulrdeveloper

SUMMARY

Self-taught Full-Stack Developer with 1+ year of experience building and shipping production web apps. Specialize in Next.js, TypeScript, and Node.js — 20+ deployed projects, 15+ technical blog posts. Open to freelance and internship opportunities.

EXPERIENCE

Full-Stack Developer

April 2025 - Present

Self-Employed / Freelance Projects

- Built DevScope — developer dashboard with GitHub stats, weather tracking, and dev tools explorer using Next.js App Router and TypeScript
- Built production-grade auth using JWT, Next.js middleware for route protection, and Zod validation — no third-party auth library

EDUCATION

BS Computer Science

Jun 2025 - Jun 2029

Superior College Shekhupura (Affiliated: GCU Faisalabad)

PROJECTS

DevScope

devscope.abdulrdeveloper.me

- Developer dashboard with GitHub stats integration, real-time weather, and dev tools explorer
- Cookie-based auth with Next.js middleware for route protection and Zod validation — no third-party auth library

TimeIt

timeit.abdulrdeveloper.me

- Premium time management app with Live Clock, Precision Timer, and Stopwatch — React 18, Vite & React Router
- Fully responsive dark UI with micro-interactions and smooth routing transitions

ChaiLearn

chailearn.abdulrdeveloper.me

- Developed step-by-step web dev learning platform with 150+ videos and advanced search functionality
- Integrated REST API with filtering capabilities, earning 18 GitHub stars from community

Professional Portfolio Card

abdulrdeveloper.me

- Reusable developer portfolio card template adopted by 25+ developers
- Clean, modern design — fully customizable for GitHub READMEs and personal branding
